Los Angeles, California 90012

Dear Supervisors:

**CALIFORNIA HEALTHCARE FOR INDIGENTS PROGRAM (CHIP)
BUDGET ADJUSTMENT FOR FISCAL YEAR 2004-05
(All Districts) (4 Votes)**

IT IS RECOMMENDED THAT YOUR BOARD:

Approve the attached Budget Adjustment to the Department of Health Services Fiscal Year 2004-05 Adopted Budget to increase the revenue and appropriation authority for the Hospital Services and Physician Services Accounts to reflect unanticipated California Healthcare for Indigents Program's (CHIP) funding totaling \$618,000.

PURPOSE/JUSTIFICATION OF RECOMMENDED ACTIONS:

The purpose of this action is to increase revenue and expenditure appropriations for the Department of Health Services Fiscal Year (FY) 2004-05 Adjusted Adopted Budget, as a result of unanticipated CHIP funding from the State, to enable additional payments of \$308,000 to private hospitals and \$310,000 to private physicians in Los Angeles County, thereby helping to ensure the continued availability of emergency medical services for those who are unable to pay for health care. Funding for these services are budgeted in the Hospital Services Account and Physician Services Account.

FISCAL IMPACT/FINANCING:

The total maximum monetary commitment to private hospitals and physicians for FY 2004-05 services is \$618,000 which is fully (100%) offset by these FY 2004-05 CHIP funds. Any unexpended funds must be returned to the State. There will be no net County cost.

FACTS AND PROVISIONS/LEGAL REQUIREMENTS:

On October 1989, the Governor signed AB 75 (Chapter 133; Statutes of 1989) into law which contained provisions for the distribution of Proposition 99 Tobacco Tax revenues. AB 75 established CHIP, a program which appropriates funding Statewide for hospitals, physicians and other health services for indigent persons. These funds are allocated to counties based primarily on each County's share of the financial burden of providing health services to those who are unable to pay. The CHIP program was extended several times by legislation. Since 1997, appropriations have been made through the State Department of Health Services budget process.

The statutes governing CHIP mandate two accounts for allocation to private sector hospitals and physicians: 1) the Hospital Services Account and 2) the Physician Services Account. Each of these accounts is further divided into non-discretionary funds and County discretionary funds. Utilization of the Physician Services Account, the discretionary funds from the Hospital Services Account (through approval of the Department's FY 2004-05 budget), and allocation of the non-discretionary funds from the Hospital Services Account were previously approved by the Board.

On August 10, 2004, the Board approved the CHIP Application, as required by Welfare and Institutions Code, Section 16940 et. seq., under which each county must apply for CHIP funds and ensure compliance with the provisions of the CHIP program. At that time, the official CHIP Distribution schedule was not yet issued by the State. On January 31, 2005, the State issued a revised Distribution Schedule to include \$310,000 for the Physicians Services Account and \$308,000 for the Hospital Services Account. To date, only the \$310,000 in funding for physician services has been received. The appropriations need to be adjusted prior to closing the FY 2004-05 financial records to ensure that the Department is able to fully expend these CHIP funds for their intended purpose.

CONTRACTING PROCESS:

Not applicable.

IMPACT ON CURRENT SERVICES:

CHIP funds will help to ensure continued availability of emergency medical services in Los Angeles County.
